

Official Transcript: See what life is like as a Capella student

SPEAKER, JEFF HUSTON: My name's Jeff Houston (*title card on screen: Jeffrey Houston, 2017 EdD GuidedPath Graduate*). I earned a doctorate of education, an EdD, from Capella University. As somebody who is in higher education, I run an academic program, the experience at Capella translates into the job that I have now, and the job that I hope to have in the future (*on screen: showcasing photos from Facebook*).

SPEAKER, NACOLE RICCABONI: My name is Nacole Riccaboni (*title card on screen: Nacole Riccaboni, 2019 MBA FlexPath Student*). I am a critical care nurse, and I am currently working on my MBA with Capella. As a nurse, I'm very research-based (*On-screen disclaimer: Actual FlexPath graduate compensated for appearing in Capella promotional materials*). When I dive into something, I want to make sure that it's accredited.

SPEAKER, JEFF HUSTON: The Capella courseroom, it's really easy to navigate. You have specific tasks that you have to do. They are challenging. They do take a lot of time (*On-screen disclaimer: Actual FlexPath graduate who agreed to appear in promotional materials*) and a lot of thought, but because the expectations are really spelled out very clearly, everything is up front in the classroom to you.

SPEAKER, NACOLE RICCABONI: These professors, they are people who have master's degrees, PhDs. And even if they're in Connecticut or Oregon, you feel like if I really need help, I can talk to you.

SPEAKER, JEFF HUSTON: The technology's never a burden. It actually is an engaging online environment. You have discussion posts where you are interacting with other learners.

SPEAKER, NACOLE RICCABONI: You have an abundance of resources. With the advisor, the library, access to the journals, these resources are available for you online 24/7.

SPEAKER, JEFF HUSTON: The great thing about online education as well is that you can get it anywhere.

SPEAKER, NACOLE RICCABONI: You create your own timeline within the course. If it's a smaller assessment, I know I can get it done in one to two weeks. If it's a larger assessment, it might take me a month. But I'm able to work. I'm able to spend time with my family. I'm able to go back to school and all those things kind of mesh together (*on screen: showcasing photos from Facebook*).

SPEAKER, JEFF HUSTON: I've been able to write papers at campouts with my kids or at our camper that we spend a lot of time in. So, it makes your classroom anywhere you want to be.
