I got my MBA through Capella University, but I wouldn't have been able to do it without FlexPath. It let me set my own pace. I was still able to work full time, 50+ hours a week, spend time with my family, travel for work, travel for fun, and not feel like I was sacrificing anything to get my MBA.

So I came into the program with a personal goal to finish my MBA within a year. And with FlexPath I achieved that goal, got my MBA, within one year.
